

SUPPORTED HOUSING

How Can We Help?

Each person receiving services will work with their human service worker to create an individual plan with goals tailored to their needs. Some common goals include learning how to:

Monitor your medications

Independently manage your home

Independently manage your finances

Integrate into the community

Providing hope for the future

Archway Station

Success Story

"Archway has helped bring back the beauty of life to me. I notice everything now; I enjoy the rain, the dew, the sunshine, the moon and even the cold air whipping around me. It is a joyous gift that I feel like myself again."

My heart is rejoicing now, and I am smiling again thanks to the help Archway has given me."
